GENERAL TIPS & SUGGESTIONS

PLAN

Stocking a dorm room with food requires strategic planning to ensure you have a variety of options that are easy to store, prepare, pack, and consume. Consider your campus meal plan, daily schedule, dietary restrictions, and food preferences.

PACK

Pack snacks to fill in the gaps that meals don't provide. Prioritize carbohydrates to keep you energized and protein to keep you satisfied until your next meal. Opt for whole grain and whole wheat choices to increase the amount of nutrients in your diet.

ENJOY

All foods can fit into a healthy eating plan. Focus on eating balanced meals and incorporating nutrient-dense foods that you enjoy.

DRY STORAGE ITEMS

- **Nuts & Seeds**
