

AOL Meeting February 21, 2014

Present: Zimmer, Revels, Gardner, Snively, Spiller & Blankenship.

Undergraduate Activity

The committee was given an extended analysis of the variances associated with each of the questions on the senior exit exam. Departmental representatives were asked to discuss with their departments the questions that varied 10 points or more from the mean.

An electronic version of the spreadsheet will be placed on the website in the minutes folder.

Results for the Written Communication Goal are as follows.

	Content	Language	Research	Format
Average	3.64	3.46		3.66

The maximum score for each area is 5 and these scores represent an acceptable score. The committee did not want to include a Research score since the case assignment did not call for any outside research.

The committee will be evaluated the Strategic / Critical Thinking goal next. Results are due March 17, 2014.
