Lights in the Darkness: Stories from the Underground

10:00 - 11:15 am

DSU 3020

Beneath layers of rock, caves and karst systems hide away some of the most productive groundwater on earth and are an amazing repository of fossils, archaeological artifacts, and unique minerals. A growing number of scientists are heading underground to study caves, and it all begins by letting the geology of the cave speak to us through mapping these hidden environments. As the data hidden away in caves have the power to impact science across the board, so do the unique stories and perspectives other people have to share. To truly understand others and to work collaboratively, we must leave space for their story to emerge without influencing it with our bias. Equally important is defining our own narrative, even when people would define it for us. Learn more about what caves can teach us and travel around the subterranean world with Dr. Johanna Kovarik as she brings her own research story to light through images of these fantastic places.

Dr. Johanna Kovarik has studied caves and karst watersheds since she got her first job with the National Park Service in New Mexico in 2003. She earned her Master's degree in Geoscience from Western Kentucky University and her Ph.D. from the University of South Florida. Her research work is primarily in land use and watershed dynamics, groundwater vulnerability, and natural resource management. She has joined grant-funded cave expeditions around the world as a geoscientist. Dr. Kovarik served for the past seven years as the National Cave and Karst Program Lead for the U.S. Forest Service, moving into this role from her work as a geologist and hydrologist on the Tongass National Forest in southeast Alaska. In 2015 she was awarded the National Rise to the Future: Friend of Fish and Watershed Award from the U.S. Forest Service for her national and international work with karst watersheds, and she is a Fellow of the National Speleological Society.

CONFERENCE INTRODUCTION

The WKU Student Research Conference showcases scholarly activities of graduate and undergraduate students of diverse disciplines from across the main and regional campuses. An annual tradition since 1970, the conference has provided opportunities for thousands of students to present papers, performances, posters, exhibits, and displays on their research and creative endeavors.

Scholarly activity is original and creative work that is shared with colleagues and the general public. Research is a form of scholarly activity that involves the discovery of new knowledge. Other forms of scholarship include the development of new technologies, methods, materials or uses; the integration of knowledge that leads to new understanding; and artistry that creates new insights and interpretations.* As demonstrated by the Student Research Conference, students significantly enrich their academic experiences at WKU by engaging in scholarly activity.

CONFERENCE HISTORY

WKU has a long history of promoting student research and creative activity. Between 1970 and 2002, the WKU Chapter of Sigma Xi organized and funded the WKU Student Research Conference. Sigma Xi is a national research honor society of scientists and engineers that recognizes scientific achievement. The society is a diverse organization of members and chapters dedicated to companionship in science and engineering and advancement of knowledge through research, teaching, and service. For the next three years, the conference was jointly sponsored and organized by Sigma Xi and the University Honors Program. In 2006, WKU hosted a weekend-long celebration of student scholarship that included the Potter College Undergraduate Conference on Friday and the annual WKU Student Research Conference on Saturday, the latter again sponsored by Sigma Xi and the University Honors Program. The following year, a special committee composed of representatives of each college, the University Honors Program, and Sigma Xi organized a single conference. In 2006-2007 Sigma Xi and the Office of the Provost provided financial support for the conference.

In 2008 Provost Barbara Burch created the Student Research Council, a university-wide committee charged with promoting student scholarly activity on campus and organizing the annual student conference. Since that year, the Student Research Council has organized the annual Student Research Conference, with financial support provided by the WKU Chapter of Sigma Xi, the Office of the Provost, the Office of Research and Creative Activity, and other university units. With support from the Office of the Provost and the Office of Research, in 2012 the Student Research Council developed a weeklong celebration of student scholarship called REACH (Research Experiences and Creative Heights) Week. Currently REACH is coordinated by the Office of Research and Creative Activity and spans the entire spring semester, highlighting student and faculty scholarship at events hosted by WKU colleges and units. The 49th Annual Student Research Conference is a major university-wide event of REACH.

CONFERENCE HIGHLIGHTS

The 49th Annual WKU Student Research Conference proudly showcases **294 research projects and creative works**. There are 158 posters and exhibits, 131 oral papers, four performances, and one video. A total of 375 students are presenters and copresenters at the conference, including 294 undergraduate students, 77 master's students, and four doctoral students. An index of presenters is provided at the end of this program. In addition, 106 graduate and undergraduate students are listed as co-authors on the papers, posters, and performances presented this year.

The interdisciplinary nature of the conference is evident in the broad range of subject areas covered in the presentations. Student participants represent diverse disciplines from 38 schools, departments, programs, and institutes in all colleges.

CONFERENCE ORGANIZATION AND SESSION WINNERS

The research and creative projects presented at the conference are organized into graduate sessions and undergraduate sessions with six students (with a few exceptions) in each session. Students are grouped into sessions based on the subject areas of their projects: natural sciences, social sciences and education, health and human services, arts and humanities, business, and interdisciplinary studies.

WKU faculty, professional staff, and retired faculty and staff serve as judges to evaluate student presentations at the conference. The judges select one winner from each of the sessions listed in this program. Session winners will be announced on the Student Research Council website at www.wku.edu/studentresearch by Monday, March 25. Winners will receive award certificates via their mentors, and all student presenters will receive judges' feedback via their mentors after the conference.

ACKNOWLEDGEMENTS

On behalf of the entire campus community, the WKU Student Research Council extends appreciation and congratulations to the hundreds of students participating in the conference. We applaud your talent, creativity, dedication, and commitment to making the most of your educational experience at WKU. Your passion for learning and academic excellence, as well as your motivation to overcome challenges, not only distinguishes you from your peers but also serves as an inspiration to others. We are proud of your accomplishments, and you should be too.

WKU faculty and staff who have supervised the students on their research and creative projects are referred to as "mentors" and are identified parenthetically in the detailed session listings on pages 12-29. A total of 145 faculty and staff served as mentors on the projects presented at this year's conference. We commend the mentors for their support of student scholarly activities and for their assistance in preparing students for the conference.

Listed below are the 96 WKU faculty, staff, and retired faculty and staff who served as judges at this year's conference. We greatly appreciate the assistance of the judges and thank them for volunteering. Many are veteran judges who have supported the conference for years or decades.

Funding for the 49th Annual WKU Student Research Conference and other REACH activities was provided by the Office of the Provost and Vice President for Academic Affairs and the Office of Research and Creative Activity.

The WKU Graduate School provides grants to graduate students to support scholarship that promotes inquiry and contributions to knowledge. A number of the graduate students presenting today were assisted by funding from the Graduate School.

A variety of funding opportunities are available to assist undergraduate students with their scholarship. In 2012 the Office of the Provost and Vice President for Academic Affairs and the Office of Research and Creative Activity initiated an internal funding program for undergraduate students called Faculty-Undergraduate Student Engagement (FUSE) grants. FUSE grants are designed to support students' intellectual development by fostering active engagement in the areas of research, creative and scholarly activities, and/or artistic performances. A total of 664 undergraduate students have received FUSE grants since the inception of the program, many of whom are among the conference participants this year.

Ryanne Gregory from the Office of Research and Creative Activity provided countless hours of logistical planning and expertise that were crucial to coordinating the conference.

Alicia Carter, Amy Bingham DeCesare, Bryan Lemon, Clinton Lewis, Corie Morell-Martin, Tommy Newton, Bob Skipper, and other members of the WKU Office of Public Affairs staff provided vital assistance with electronic advertising, press and social media releases, photography, conference artwork design, and a *View from the Hill* video segment. We appreciate the support of Will Hoagland at the *College Heights Herald*.

Diana Keeling provided expert database support to the Student Research Council.

WKU faculty members Simran Banga, Rodney King, Matthew Nee, and Enakshi Roy delivered informative professional development workshops for students in advance of the conference.

The Downing Student Union staff at WKU provided logistical support for the conference. WKU Dining prepared lunch in the Fresh Food Company, and WKU Catering provided refreshment support in our judges' deliberation room.

The WKU Student Research Council organizes the annual conference. Council members represent the following campus units: academic colleges, Honors College, Graduate School, University Libraries, University Senate, Gatton Academy, Sigma Xi, Student Government Association (SGA), and Office of Research and Creative Activity. Members in 2018-2019 are Darlene Applegate (co-chair), Simran Banga, Cheryl Davis, Uma Doraiswamy (co-chair), Scott Gordon, Ryanne Gregory, Xiaoxia "Silvie" Huang, Ismail Civelek, Christopher Keller, Morteza Nurcheshmeh, Nyla M. Rogers, Enakshi Roy, Brigid Stakelum, Derick B. Strode, and Rachel Tinius. For more information about the Council, visit www.wku.edu/studentresearch. The Council sincerely appreciates the students, faculty, staff, and community members who contributed to the great success of this interdisciplinary conference, as well as the friends and family members who attended the event.

Explanation of Presentation Listings

The program includes details for each presentation in the following order: presenter, co-presenters (as applicable), co-authors (as applicable), the session title, and the mentor for a project. Each WKU student was permitted to serve as the primary presenter on one presentation at the conference. Up to three co-presenters and up to six co-authors could also be listed.
