Assurance of Student Learning				
2019-2020				
Ogden College of Science and Engineering	Biology Department			
	Biology - 525			

Use this page to list learning outcomes, measurements, and summarize results for your program. Detailed information must be completed					
in the subsequent pages.					
Student Learning Outcome 1: Graduates will demonstrate a level of biological content knowledge appropriate to their degree level.					
Instrument 1	Senior Biology Assessment Exam.				
Instrument 2					
Instrument 3					
Based on your i	results, circle or highlight whether the program met the goal Student Learning Outcome 1.	Met	Not Met		
Student Lear	rning Outcome 2: Graduates will demonstrate the ability to apply scientific methodology and field/laborator	y/analytica	skills to a		
biological que	estion.				
Instrument 1	Biology senior exit survey question 1: "Did you conduct research in BIOLOGY at WKU (e.g., BIOL 399)? - Rate your ability."				
Instrument 2	Biology senior exit survey question 2: "Based on your experience in BIOLOGY at WKU, rate your ability to create scientific products (e.g., analyze data and make graphs or tables, give a presentation, write a scientific paper) (with 100 being excellent)."				
Instrument 3					
Based on your i	results, circle or highlight whether the program met the goal Student Learning Outcome 2.	Met	Not Met		
Student Lear	rning Outcome 3: Seniors will be prepared for success in biology-related fields.				
Instrument 1	Biology senior exit survey question: Students' response to the exit survey question: "What will you do after graduation (select all	that apply)?"			
Instrument 2					
Instrument 3					
Based on your i	results, circle or highlight whether the program met the goal Student Learning Outcome 3.	Met	Not Met		
Program Sur	nmary (Briefly summarize the action and follow up items from your detailed responses on subsequent pages.)				
	Its from this assessment indicates that the program has reached and/or exceeded the self-reported assessment goals in SLO1, but ded SLO3 were not recorded and thus were unable to be assessed. Thus, "Not Met" was selected for SLO2&3 even though in reality				

The following recommendations came out of this year's assessment:

- Assessment Instruments with direct measures for SLOs 2 & 3 will be reported for subsequent years' assurances of student learning. The SLOs will be modified in such a way that they will be tractable with direct measures.
- Our capstone course (BIOL 489- Professional Aspects of Biology) will become the focal point in which ASLs are assessed in the Department of Biology.

Student Learning Outcome 1				
Student Learning Outcome	Graduates will demonstrate a level of biological content knowledge appropriate to their degree level.			
Measurement Instrument 1	DIRECT MEASURE: Biology Senior Assessment Exam All Biology majors are now required to take BIOL 489 (Professional Aspects of Biology) as the Capstone course in biology. As part of this course, each student is required to take the Biology Senior Assessment Exam in Blackboard, which has questions randomly chosen for each student from a pool of 500 questions from the Biology Subject Graduate Record Exam. Results will be given to the Biology Assessment Committee.			
Criteria for Student Success		rgraduates will score a 70% or higher		
Program Success Target for this		60%	Percent of Program Achieving Target	85%
Methods	51 out of 66 stud	lents (85%) in this cohort scored 70% or l	higher on the Biology Senior Assessment Exam.

Based on your results, circle or highlight whether the program met the goal Student Learning Outcome 1.

Met

Not Met

Actions (Describe the decision-making process and actions planned for program improvement. The actions should include a timeline.)

- 1) The proportion of the BIOL 489 grade that comes from taking the Biology Senior Assessment Exam and the subsequent score, will be increased so that students will put more effort into performing their best on the exam to more accurately reflect their knowledge.
- 2) The Biology Senior Exit Exam questions will be coded by biological category (e.g., cell biology, genetics, evolution, ecology, etc.) in the future so that student success can be quantified in terms of areas of strengths and weaknesses.

Follow-Up (Provide your timeline for follow-up. If follow-up has occurred, describe how the actions above have resulted in program improvement.)

Changes to the Biology Senior Exit Exam (see above) will be incorporated in the Fall 2020 or Spring 2021 semester.

Student Learning Outcome 2					
Student Learning Outcome	Students will apply scientific methodology and field/laboratory/analytical skills to a biological question.				
Measurement Instrument 1	INDIRECT MEASURE 1: Exit survey question: Students response to the exit survey question: "Did you conduct research in BIOLOGY at WKU (e.g., BIOL 399)? - Rate your ability."				
Criteria for Student Success	Biology student	s will have participated in some form of research w	while at WKU and feel confident in their ability	ty to perform re	search.
Program Success Target for this	Measurement	75%	Percent of Program Achieving Target	unkn	own
Methods	research while a	bundled survey question, asking students to respond t WKU; but all students responded by rating their a lts were not collected this year as a result of the CC , which were not required previously, will be assess	ability. OVID-19 pandemic and delivery modality tra	-	
Measurement Instrument 2	INDIRECT MEASURE 2: Exit survey question: Students' response to the exit survey question "Based on your experience in BIOLOGY at WKU, rate your ability to create scientific products (e.g., analyze data and make graphs or tables, give a presentation, write a scientific paper) (with 100 being excellent)."				
Criteria for Student Success	Biology students will have participated in some form of research while at WKU and feel confident in their ability to perform research.				
Program Success Target for this Measurement		65%	Percent of Program Achieving Target	unknown	
Methods	The survey results were not collected this year as a result of the COVID-19 pandemic and delivery modality transitions to online. Direct measures, which were not required previously, will be assessed in the next reporting period.

Based on your results, circle or	highlight whether	the program met the goal Student Learning O	utcome 2.	Met	Not Met
Actions (Describe the decision-ma	aking process and	actions planned for program improvement. The ac	ctions should include a timeline.)		l

The Biology Assessment Committee will develop a different Student Learning Outcome that has a direct measure for future assessment.			
Follow-Up (Provide your timeline for follow-up. If follow-up has occurred, describe how the actions above have resulted in program improvement.)			
A new SLO with a direct measure as an instrument will be implemented during the Fall 2020 or Spring 2021 semester.			

Student Learning Outcome 3					
Student Learning Outcome	Seniors will l	be prepared for success in biology-relate	ed fields.		
Measurement Instrument 1		INDIRECT MEASURE: Exit survey question: Students' response to the exit survey question: "What will you do after graduation (select all that apply)?"			
Criteria for Student Success	The Biology Department seeks to prepare students for graduate or professional schools, biology-related jobs, and/or service-related activities. The number of students accepted into such positions is our message of success.				
Program Success Target for this Measurement		70% will be accepted into biology-related jobs or subsequent training.	Percent of Program Achieving Target	unknown	
Methods		rvey results were not collected this year as a result, which were not required previously, will be asses	·	odality transitions to online.
