- 1.1 Current course prefix and number: CNS 590
- 1.2 Course title: Practicum
- 1.3 Credit hours: 3
- 2. Current course grading system: Pass/Fail
- 3. **Proposed course grading system:** Standard Letter Grading
- 4. Rationale for revision of course grading system:

The faculty decided to switch to "Pass/Fail" grading for Practicum a couple of years ago. It has since been determined that the quality of student work in Practicum has declined since this change was made. Some students simply want to do the bare minimum necessary to just 'get by' as opposed to what they are actually capable of doing. Faculty need the ability to more precisely evaluate the quality of student performance in Practicum; i.e., provide more of an incentive to go above and beyond the minimum requirements. The "Standard Letter Grading" option would again afford them this opportunity.

- **5. Proposed term for implementation:** Summer Session 2007
- 6. Dates of prior committee approvals:

College of Education and Behavioral Sciences CEBS Dean's Office Proposal to Revise a Program

(Action Item)

Contact Person: Retta Poe: retta.poe@wku.edu 745-4662

1. Identification of program

1.1 Reference number: 042

1.2 Current program title: (Master of Arts in Education) Education and Behavioral Sciences Studies

1.3 Credit hours: 30

2. Identification of the proposed changes:

• Delete restricted electives in the categories of the core. Selection of courses for each category will be determined by the program advisor, based on an evaluation of student's professional needs and goals.

3. Detailed program description:

Current program:

This program is designed for students who wish to do advanced study of education or behavioral sciences but whose career goals are not addressed by existing programs. Completion of this program does not lead to initial or advanced certification by Kentucky's Education Professional Standards Board, nor does it lead to certification or licensure in counseling or psychology.

Applicants for admission are expected to attain a GAP score consistent with the minimum established by the university (currently 2200); earn a GRE-Verbal score of at least 350; and achieve a GRE Analytical Writing score of at least 3.5. In addition, applicants are expected to have an undergraduate degree in an area related to education or behavioral sciences. Accompanying the application must be a personal statement that describes the applicant's professional/career goals, including a discussion of how the applicant believes completing the MAE in Education and Behavioral Science Studies will contribute to the realization of those goals. International students who apply must achieve a minimum score of 550 on the TOEFL (or 213 on the computer-based version). The Listening subscale score must be at least 50 (16 on the computer-based version), and the essay writing subscale score must be at least 4.0.

A minimum of 30 semester hours of graduate level course work is required for the non-thesis option; 24 hours of course work is required for the thesis option. All students must pass a final comprehensive examination.

PROFESSIONAL CERTIFICATE FOR INSTRUCTIONAL LEADERSHIP

SCHOOL SUPERINTENDENT - ALL GRADES

Alternative Route to Certification Program
Built upon the School Superintendent All Grades Certification Program

WESTERN KENTUCKY UNIVERSITY

EDUCATIONAL ADMINISTRATION

DEPARTMENT OF EDUCATIONAL ADMINISTRATION, LEADERSHIP, AND RESEARCH

COLLEGE OF EDUCATION AND BEHAVIORAL SCIENCES

WESTERN KENTUCKY UNIVERSITY

EXECUTIVE SUMMARY

Western Kentucky University proposes to offer an Alternative Route to Certification for School Superintendent – All Grades.

All programs in educational administration in the Department of Educational Administration, Leadership and Research in the College of Education and Behavioral Sciences at Western Kentucky University (WKU) are designed to develop and train transformational leaders. These standards-based programs of study are designed to prepare high quality educational administrators who have demonstrated a significant degree of commitment to the profession and desire an opportunity to develop and enhance their leadership skills. These leaders base all decisions and actions on effects related to the improvement of student success viewed holistically. Successful completion of program requirements are intended to develop transformational leaders who:

- (1) Interpret and utilize data and to improve instruction and performance.
- (2) Demonstrate knowledge of and commitment to issues of equity and ethics in a pluralistic world.
- (3) Facilitate an inclusive, collaborative culture including all such community stakeholders in the promotion of creativity and optimal performance.
- (4) Influence and lead individuals through systemic reform of their context.

The continuous assessment plan will be the same as used for the traditional program. A system of integrated elements provides ongoing assessment of all certification programs offered within the unit. The system includes collecting and reviewing both internal and external input from candidates and from employers. This data is then used to make program changes as appropriate.

All KERA initiatives and EPSB initiatives are addressed within the program content from the perspective of the school district leadership with particular emphasis on the role of the superintendent and/or assistant superintendent.

Candidates who lack some or all of the traditional program requirements can be admitted to the program upon request of a local school district that wishes to consider them as an applicant for a position. If employed, they will have two years to complete all requirements. Applicants to the alternative route to certification program will be assessed individually by a faculty committee to determine the extent to which each applicant has appropriate and adequate educational training and job experience to be admitted to the program. Any areas of deficiency identified by the committee must be satisfied as prerequisite requirements before completion of the program.

The primary reason for implementing an alternative route to certification program for School Superintendent All Grades is to better serve the needs of those school districts within our service region. The alternative route program enables the district to consider the best candidates for positions of superintendent or assistant superintendent, including consideration of candidates that previously have not completed requirements for the superintendent's certification endorsement or are otherwise not eligible for certification under traditional program guidelines.

This alternative route to certification program will allow candidates to be admitted to and complete the program who do not have a traditional background and/or have not completed the prerequisite requirements for the traditional program. Depending on the prior education and/or job experience of the candidate, some or all program requirements may be credited based on that prior experience. Likewise, if it is deemed that the candidate has any particular deficiencies, then the candidate may be required to take additional coursework beyond the traditional program requirements.

Request for Approval of Alternative Route to Certification for School Superintendent

| Western Kentucky University proposes to offer an alternative route to certification for School Superintendent A |

11 Grades.

The primary reason for implementing an alternative route to certification program for School Superintendent All Grades is to provide the opportunity for any school district to be able to select the best possible candidate for superintendent or assistant superintendent based on the criteria which the local committee has developed to meet the specific needs of their district. The alternative route program will enable the consideration of candidates that were previously ineligible as they had not completed certification requirements or were not otherwise eligible for certification. Offering this program at Western Kentucky University will provide a service for those school districts that are within the WKU service area. There were three districts just in the past year who requested WKU's assistance in providing this opportunity for a candidate within their district. In the absence of having an approved Alternative Route to Certification program for Superintendent, WKU had to refer the districts and candidates to other state institutions. School districts within the WKU service region have an expectation that all of their certification needs will be met through WKU.

Also, fueling the need for this program is the increasing number of principals who received certification through an alternative route to principal certification program. Many of these school administrators are in school leadership positions and are quite successful. However, many of them are not eligible for superintendent certification as they lack some of the necessary prerequisites. These same prerequisites were waived in order for them to be admitted for principal certification and should not now be a barrier to superintendent certification.

This alternative route to certification program will allow candidates to be admitted to and complete the program who do not have a traditional background and/or have not completed the prerequisite requirements for the traditional program. Depending on prior education and/or job experience of the candidate for alternative route to certification, some course requirements may be credited based on that prior experience and education. Likewise, if it is deemed

that the candidate has any serious deficiencies, then the candidate may be required to take additional coursework beyond the traditional program requirements.

Assessment of applicants to the alternative route to certification program for School Superintendent All Grades will be done on an individual basis by a department faculty committee. Depending on the nature of the individual candidate's educational background and/or job experience, faculty from other departments and colleges in the university may be consulted to assist the department faculty in the assessment of the applicant. The six Interstate School Leaders Licensure Consortium Standards and the six standards included in Technology Standards for School Administrators will provide the guideline for assessment. The department committee will also determine what, if any, additional coursework and/or field experience beyond the specialty area coursework may be necessary for the alternative route candidate as well as determining what, if any, requirements will be waived.

| | |
| Methods of delivery Courses will be delivered through a combination of online courses that include limited face-to-face meetings ar mentored fieldwork in local school district sites. Timeline and sequence of courses/activities | ıd |

PROGRAM EXPERIENCES

Candidates aspiring to complete and obtain the Professional Certificate for Instructional Leadership--School Superintendent must have completed both Level I and Level II preparation and certificates for one of the positions of early elementary school principal, middle school principal, secondary school principal, or supervisor of instruction. These facets comprise the basis for the program components: General Education, Specialty Area and Professional Studies. If candidates have not completed any of these other preparation programs, then they must demonstrate through other education and/or job experience, essential knowledge and understanding consistent with or an appropriate substitute for what is provided in either the undergraduate or graduate degree or background and these certification programs. This determination will be made by the department admissions committee.

A. GENERAL EDUCATION

The General Education components are based on the undergraduate background and the master's degree or graduate background as identified in the Western Kentucky University <u>Graduate Catalog</u>. The General Education requirements and components are basically the same for all programs. Specifics are identified in the Admission requirements in Section IV of the Folio.

B. SPECIALTY AREA

The Specialty Area is based on the courses required in the Level I and Level II programs for principal and supervisor of instruction. The certification program for School Superintendent is a twelve [12] semester hour program that can be completed within one calendar year. The following, specific courses are required for all students who aspire to obtain the Professional Certificate for Instructional Leadership School Superintendent:

EDAD 639 The Superintendency - Prerequisites: Permission of instructor and two years of school administrative experience. Function, role, and responsibilities of the school superintendent. Topics include politics and education; superintendent's relationships with the school board, central office staff, and with the state

department of education; the budget process; strategic planning; and curriculum leadership.

- **EDAD 649 School System Administration** Prerequisites: Permission of instructor. School systems operations including finances, auxiliary services human resources, federal and state programs, facilities, and curriculum and instruction.
- **EDAD 659 Strategic Planning In Education -** Prerequisites: Permission of instructor. Examination of planning processes used by leaders to direct educational change and improvement. Includes strategic planning approaches designed to address macro and micro organizational goals.
- **EDAD 598 Field-Based Experience in Educational Administration.** Clinical experiences with practitioners in the field to acquaint the prospective administrator/supervisor with the realities of educational organizations.

In those instances where the alternative route candidate demonstrates exceptional and appropriate leadership experience through other job experience, one or more of these courses or prerequisites may be waived based on that exceptional experience. This will be determined by the department admissions committee.

C. PROFESSIONAL STUDIES

The professional studies component is based on the certification for teaching, principalship and/or supervisor of instruction, master's degree, and the years of educational experience. The emphasis for this program is found in the Specialty Area component.

___Clinical/field experiences

The program for School Superintendent gives emphasis to field and clinical experiences requiring a practicum with the course EDAD 639, The Superintendency. The practicum involves a minimum of twenty-five [25] clock-hours. Under the direction of the cooperating administrator, the student must work in a specified number of activities representative of the types of experiences deemed appropriate and approved for the candidate's program. All or a portion of these field and clinical experiences may be waived by the department admissions committee for alternative route candidates.

Faculty: Vickie Basham Ed.D. Gayle Ecton Ed.D. Jeanne Fiene Ph.D. Ric Keaster Ed.D. William Kelley Ed.D. William Schlinker Ed.D. Jim Stone Ed.D. Sharon Spall Ed.D. Jianliang Wang Ed.D. Christopher Wagner Ph.D.

Dedicated resources

- 1. Each district will provide at least one field placement per candidate. For example some students will have a full time quasi-administrative position, which might provide a teacher salary plus twenty days. In other cases a district might be more limited with resources and only be able to provide release time for activities such as job shadowing. In any event each district that recommends a candidate accepted for the cohort will provide some leadership role for him/her to fill.
- 2. Each district will provide at least one mentor as a support to the candidate.
- 3. District based practitioners will be identified as experts to enhance currency of university based summer programs in areas such as transportation, finance, and auxiliary programs.
- 4. Western Kentucky University will provide the technological resource support that will allow web-enhanced instructional delivery. The entire program will be web-enhanced with particular emphasis on utilizing the web to support the field experiences. The web will allow the mentoring team to maintain virtual office hours and for virtual chats between the student and mentoring team as well as between the cohort for virtual seminars. Additionally, students can collaborate on related projects using the web. Discussion boards will be used for ongoing discussion of issues and problems encountered in the field experience as well as to address topical issues assigned as part of the field experience. The web site will also provide resource support to the cohort through external links, sharing of files, and networking capabilities.
- 5. The entire faculty in educational administration and research has expressed a commitment to working collaboratively in the development and delivery of this program. Similarly other college and university faculty will be drawn into the collaboration as needs arise. For example curriculum expertise may be folded in from the teacher education faculty or new leadership theory and practice form a colleague in the business college.

__Collaboration with colleges/departments outside education

Collaboration with colleges/departments outside of education will be necessary to help assess a non-traditional applicant's relevant education and work experience. Faculty members from colleges/departments outside of the College of Education and Behavioral Sciences and/or Department of Educational Administration, Leadership, and Research, will be added to the department's committee to help assess non-traditional candidates whose work experience and/or educational background is outside of education.

Section 1c

Section 3a

Section 3d

College of Education and Behavioral Sciences Department of Curriculum and Instruction Proposal to Revise Course Prerequisites (Consent Item)

Contact Person: Tabitha Daniel, Tabitha.daniel@wku.edu, 7452615

1 Identification of course:

1.1 Course prefix (subject area) and number: ELED 345

1.1 Course title: Teaching Strategies for Elementary Teachers I

1.1 Credit hours: 3

2 Current prerequisites/corequisites:

Prerequisites: EDU 250 and PSY 310 with a grade of "C" or higher; a passing score on specified standardized

instrument and admission to Teacher Education pending.

Prerequisite or Corequisite: EXED 330

3 Proposed prerequisites/corequisites:

Prerequisites: EDU 250 and PSY 310 with a grade of "C" or higher; a passing score on specified standardized

instrument, overall GPA of 2.5 or higher, and admission to Teacher Education pending

Prerequisite or Corequisite: EXED 330

4 Rationale for the revision of prerequisites:

In order to be admitted to Teacher Education a student has to have achieved a 2.5 or higher GPA. However, every semester there are students with insufficient GPAs enrolling in ELED 345, taking spaces away from other students who have already met the GPA requirement for admission to Teacher Education. Because there is more student demand for ELED 345 than there are available slots, the faculty would like to give the slots to the students who are most likely to qualify for admission to the program. Therefore, the faculty are proposing that to enroll in the course, students will have to have a high enough GPA to qualify for admission to Teacher Education.

5. Effect on completion of major/minor sequence:

No effect

6. Proposed term for implementation:

Summer 2007

7. Dates of prior committee approvals:

Department of Curriculum and Instruction

College of Education and Behavioral Sciences Department of Curriculum and Instruction Proposal to Revise Course Prerequisites (Consent Item)

Contact Person: Dr. Terrence McCain, terry.mccain@wku.edu 270.745-6055

1. Identification of course:

- 1.1 Course prefix (subject area) and number: MGE 490
- 1.2 Course title: Student Teaching
- 1.3 Credit hours: 5 or 10 hours

2. Current prerequisites and co-requisite:

Prerequisites: Admission to Teacher Education; overall GPA of 2.5 or higher; and completion of the following courses with grades of "C" or higher: MGE 275, EXED 330, MGE Methods course(s), LTCY 421 or 444, PSY 421 or 422 and

PSY 310

Co-requisite: EDU 489

3. Proposed prerequisite and co-requisites:

Prerequisites: Admission to Teacher Education; overall GPA of 2.5 or higher; and completion of all professional education and content courses with grades of "C" or higher.

Co-requisite: EDU 489

- **4. Rationale for the revision of prerequisites/co-requisites/special requirements:** The faculty believe that grades of "C' or higher should be required not only in the professional education courses but also in the content courses so that students will have a stronger knowledge base in the content areas that they are teaching.
- 5. Effect on completion of major/minor sequence: none
- **6. Proposed term for implementation:** The requirement of grades of "C" or higher in professional education courses is not changed, so it is effective immediately. The requirement of grades of "C" or higher in content courses will affect students who declare the major in Middle Grades Education beginning Fall, 2007 and thereafter.

MEMO TO: CEBS Curriculum Committee

FROM: Retta Poe

DATE:02/13/07

SUBJECT: Report from the Alternate Admission Subcommittee

Members of the Alternate Admission Subcommittee of the CEBS Curriculum Committee were requested to individually review one application for alternate admission to the MAE program in Literacy Education. All members of the subcommittee reviewed the application and returned their recommendations to me by 2/13/07.

Subcommittee members reviewed the application using the *Checklist for Alternate Admissions Subcommittee*, which was developed based on the college's policy for alternate admission applications. The subcommittee recommended that S.T. be unconditionally admitted to the MAE program in Literacy Education.

I have forwarded the application to Graduate Studies in accordance with the recommendations of the Alternate Admission Subcommittee.

MEMO TO: CEBS Curriculum Committee

FROM: Retta Poe

DATE:02/26/07

SUBJECT: Report from the Alternate Admission Subcommittee

Members of the Alternate Admission Subcommittee of the CEBS Curriculum Committee were requested to individually review one application for alternate admission to the MAE program in Instructional Leader - Principal. Four of the five members of the subcommittee reviewed the application and returned their recommendations to me by 2/26/07 (one member abstained).

Subcommittee members reviewed the application using the *Checklist for Alternate Admissions Subcommittee*, which was developed based on the college's policy for alternate admission applications. The subcommittee recommended that L.G. be unconditionally admitted to the MAE program in Instructional Leader - Principal.

I have forwarded the application to Graduate Studies in accordance with the recommendations of the Alternate Admission Subcommittee.
