

A photograph of a man and a woman in a professional setting. The man, on the left, has a beard and is wearing a white button-down shirt. The woman, on the right, has curly hair and is wearing a white sleeveless top. They are both looking down at a document or screen. Several colorful sticky notes (green, purple, orange, yellow) are scattered around them, some on the document and some floating in the air. The background is a brick wall with a window.

## Western Kentucky University's Lean Six Sigma Certificate Can Increase Revenue and Productivity

Western Kentucky University's Lean Six Sigma programs are held in a 100% online format with a combination of live, instructor-led sessions and self-paced assignments.

The **Green Belt program** is approximately one month and the **Black Belt program** is two months — with required online class sessions conveniently scheduled in the evening.

Tuition for the Green Belt program is \$2,995 and for the Black Belt program is \$4,995. Discounts for enrolling multiple students and completing both programs are available.

Please call (270) 282-2112 for more information on how we can work together.

The well-trained professionals who complete our Six Sigma Certification program learn many important workplace skills. Among some of those most valuable skills are how to drive strategic process improvements that can help your organization operate efficiently and realize tremendous cost

**Here are some ways your organization can benefit from having you and team members earn their Six Sigma Certificate:**

- 1 Increase Customer Satisfaction.** Teams trained to implement Six Sigma methodologies are better equipped to make decisions and actions based on what yields the best results for your customers or clients. Improved satisfaction and loyalty increases demand.
- 2 Remove unnecessary and redundant steps in your process.** Six Sigma-trained professionals have the necessary skills needed to lead processes that create products and services that are both efficient and high quality.
- 3 Save time and money.** Employees trained by WKU's Six Sigma program are valuable team members with the skills needed to maximize profitability and productivity by eliminating mistakes and wasted resources.
- 4 Create a competitive advantage.** Receive the benefits of being an employee who is constantly leading continuous improvement efforts and consistently positioning your company's brand to stand out.

A large photograph of a smiling man in a blue and yellow plaid shirt in the foreground, with three other people working at a table in the background.

# Learn from the Best.
