

Working past 65? We're here to help.

Learn more about enrolling in and delaying Medicare.

Enrolling in Medicare

You are eligible to enroll in Medicare three months before through three months after you turn 65. This is known as your Initial Enrollment Period. During this time, you can enroll in Medicare Part A (Hospital Insurance) unless you want to continue contributing to your health savings account.

Delaying Medicare

You can decide to delay Medicare Part B (Medical Insurance) if you or your spouse are:

- Currently working
- Have coverage through your employer or union
- And your employer or union has 20 or more employees or members

If you or your spouse work past 65, you can wait to sign up for Medicare until you stop working or lose your health insurance, whichever comes first.

Different factors can affect your Medicare eligibility, like if you:

- Receive coverage through a spouse who is currently working
- Have retiree coverage, COBRA coverage, and other coverages
- Contribute to a health savings account (HSA)
- Have end-stage renal disease, ALS, or permanent disability
